## NUTRIENT MANAGEMENT PROGRAM

nminfo.mda@maryland.gov

Dear Professional Lawn Fertilizer Applicator License Holder:

As a professional lawn fertilizer applicator license holder you are responsible for ensuring that each employee involved in lawn fertilizer application has completed an approved training program. The purpose of the training is to instruct employees in the proper use of fertilizer and the basic principles of lawn management.

An employee who has not successfully completed the approved training may only apply lawn fertilizer if a Certified Professional Fertilizer Applicator (PFA) is physically present at the site. An individual must complete the required training within 30 days of employment and before the Employee ID and Registration Request form is submitted to the Maryland Department of Agriculture (MDA).

The training must include the required topics listed in the Regulations 15.20.10 Fertilizer Application Requirements for Land Not Used for Agricultural Purposes. Training requirements are met by using the MDA presentation "Fertilizer Applicator Training," available for download from the MDA Nutrient Management Web site (visit [www.mda.maryland.gov/fertilizer](http://www.mda.maryland.gov/fertilizer) and follow the "Training Requirements and Registration Form for Non-Certified Fertilizer Applicators" link).

Upon completion of the training the attached *Trained Employee Registration Form* must be submitted that lists the employee's name, social security number or driver's license number, and date of training along with \$15 registration fee in order to register each new employee. Public agencies are exempt from the registration fees. You may make copies of the form in order to register additional employees. Be sure to retain a completed copy of the form for your records.

An employee's registration is required to be renewed annually by submitting the Registered Employee Renewal form and submitting the annual registration fee for each employee. An employee's registration is valid from date of issue through June 30 of each year. If an ID card is lost, stolen or damaged there will not be a fee associated with issuing a replacement ID card. A written request with the employee's name must be submitted when requesting a replacement card.

Upon termination of an individual's employment you need to inform MDA in writing that the individual is no longer an employee of the company, or agency. The attached *Trained Employee Termination Form* can be used to notify MDA when an employee leaves. You may also email your Nutrient Management Specialist directly to notify the department of a termination. The two specialists are [Judy.Mcgowan@maryland.gov](mailto:Judy.Mcgowan@maryland.gov) and [Kelly.love@maryland.gov](mailto:Kelly.love@maryland.gov).

Should you have any further questions regarding the training requirements for registering an employee, contact this office at [nminfo.mda@maryland.gov](mailto:nminfo.mda@maryland.gov), or one of the specialists above.

Sincerely,

Bryan Harris  
Implementation Coordinator

Complete the following information to register a new employee and to request an I.D. card. There is a \$15 fee for registering each new employee. Fees do not apply to ID cards issued for public agencies. Employee Registrations expire June 30 of each year, regardless of the date issued.

NOTE: This form does not serve as a Change In Status form for a Registered Employee when there is a change in employment.

PLEASE TYPE OR PRINT LEGIBLY:
