

# Pepé Bell Pepper's Color-by-Numbers

Did you know that bell peppers come in every color of the rainbow? That's right! There are red, orange, yellow, green, brown, and even purple bell peppers.

All bell peppers start out green; the longer they stay on the vine, the riper and sweeter they get. Their final color depends on the variety.

Have fun creating your own rainbow of peppers by completing this color-by-number activity! Use this color key as a guide.

1 = Red   2 = Orange or Yellow   3 = White or Brown  
4 = Green   5 = Blue or Purple

*(Use different shades of the colors for variety.)*

Then color the rest of the scene any way you want.
