Certification as a Private Applicator is for the use of Restricted Use pesticides by an individual for the **production** of an agricultural commodity, such as field and forage crops, fruit and vegetables, nursery stock, Christmas trees, greenhouse plants and similar commodities, on property that is owned or leased by the certified individual. A Private Applicator Certificate does not entitle the certificate holder to provide pest control services, including the use of pesticides, for hire, in the maintenance of property, such as golf courses, apartment complexes, company or corporate property, or to public property by an individual that is employed by any form of government, i.e., city, county or state.
