

Please Join us for a Free Workshop and Lunch

April 17, 2018

# GARRETT COUNTY

## MANURE INJECTION DEMONSTRATION DAYS

Due to Poor Field Conditions, Field Demonstrations Have Been Postponed

### Farm Smarter

Rising fertilizer costs require farmers to maximize the use of “free” nutrients available in manure. Incorporating manure into the soil is an effective management strategy for keeping these valuable nutrients in the field. This program offers practical strategies for injecting manure into the soil to allow incorporation while maintaining a no-tillage management system. Farmers will have an opportunity to talk to custom applicators, discuss costs, and learn about cost-share programs for manure injection and manure transport.

*\*Participants receive continuing education units from the Maryland Nutrient Management Program.*

### AGENDA

Tuesday, April 17, 2018 | Includes Lunch

**New Location:** Grantsville Fire Hall  
178 Springs Road  
Grantsville, MD 21536

**Schedule:** 9:30 AM  
Registration, Coffee and Donuts

10:00 AM  
Slide Show and Videos of Manure Injection

11:00 AM  
Guest Speakers and Topics

- Hans Schmidt, MD Department of Agriculture
- Norm Astle, Maryland Cost-Share Programs
- University of MD Extension Educator
- Surviving the Next Farm Financial Crisis
- Managing Manure for Increased Profitability

12 Noon – 1 PM  
Complimentary Lunch
