**Application and Remittance Form Affirmation:**

I affirm that all statements made in this application are true and correct. I understand that the operation may be subject to unannounced inspection and/or sampling for residues at any time as deemed appropriate to ensure compliance with the Organic Foods Production Act of 1990, the National Organic Program Rule and other applicable standards or requirements. I agree to pay all costs and fees associated with this program. I understand that I must notify the MDA Organic Certification program if I intend to make modifications to products, processes or systems which could affect the compliance of the product with the requirements of the applicable standards or regulations and cannot sell or distribute the affected products until approval is received from the MDA Organic Certification Program.

I understand:

- If I (a) knowingly sell or label a product as organic, except in accordance with the National Organic Program, I shall be subject to a civil penalty of not more than \$10,000 per violation; (b) make a false statement under the Act to the Secretary, a governing State official, or an accredited certifying agent, I shall be subject to the provisions of section 1001 of Title 18, United States Code.
- Except for operations exempt or excluded in the NOP §205.101, each production or handling operation or specified portion of a production or handling operation that produces or handles crops, livestock, livestock products, or other agricultural products that are intended to be sold, labeled, or represented as "100 percent organic," "organic," or "made with organic (specified ingredients or food group(s))" must be certified according to the provisions of subpart E of the NOP and must meet all other applicable requirement of this part and submission of this plan in no way implies granting or continuation of certification by the MDA Organic Certification Program.
- I am required to surrender my certificate and can no longer sell or label products as certified by the MDA if: I withdraw from the program; my certification is not continued for failure to submit an annual update or fees; or any other reason in accordance with the NOP.
- My operation must be inspected annually to continue certification and the inspection must be conducted within 30 days of the first notification from the Maryland Department of Agriculture to schedule the inspection. Notification may be made by letter, phone call or email. Failure to respond to the notification or be available for inspection may result in the issuance of a noncompliance.
- The USDA National Organic Program requires MDA to conduct unannounced inspections for a minimum of 5% of the MDA certified operations annually. MDA conducts unannounced inspections at their discretion and that I may be subject to an unannounced inspection at any time throughout the year. Failure to be available for an unannounced inspection may result in the issuance of a noncompliance.

 Representative Signature Date

The Agricultural Management Assistance Program authorized under the Federal Crop Insurance Act provides for reimbursement of organic certification costs. Producers and handlers certified by USDA accredited certifiers are eligible to receive reimbursement for 50% of certification fees, up to a maximum of \$500 per scope.

**Do you wish to receive reimbursement through the Organic Certification Cost Share Program?**

I do wish to receive reimbursement      I do not wish to receive reimbursement

Reimbursement calculation example: If your certification costs were \$500, you will receive 50% reimbursement, which would be \$250.00. If your certification costs were \$1,500 for Crop scope certification and \$1,500 for Livestock scope certification then 50% for each would be \$725, and you would be eligible to receive \$1000 total: \$500 for each scope.
