Maryland's love affair with horses began 350 years ago. Today, horses continue to bring Marylanders closer to nature and a healthier, more active life. Find out how you can connect with Maryland's horse story – visit www.findmdhorse.org.

To learn more, visit www.findmdhorse.org

To find a horse experience near you, check out our online directory at www.findmdhorse.org.

Dear Friends,

Welcome to the pages of the first Official Guide to Maryland's Licensed Stables.

Perhaps you are brand new to horses and are looking for a place for you, your family or friends to ride or just become acquainted with horses.

Or maybe you already experience the joys of being around these magnificent creatures and have visited or are taking lessons, boarding or leasing a horse at one these beautiful facilities.

Whatever your level of equine experience, we hope you will find this guide interesting, informative and useful. **It is the cornerstone of our new marketing campaign—“Find A Horse. Find A Friend.”**

Licensed stables from all parts of the state have elected to take part in this guide and we hope others join in our ongoing online edition. They comprise one of Maryland's most treasured assets. Whether it is a gateway stable, where beginners learn to explore the wonder of horses for the first time, or one of our advanced stables, which coach riders and train horses on the national and international stage, all are equally important.

While the mission of the Maryland Horse Industry Board is to market and promote the horse industry, our sole regulatory function is to ensure that the state's licensed stables adhere to the minimum standards of care for horses and provide for the safety of their customers. This is our first stable directory. We look forward to hearing your comments, making improvements and adding features in subsequent issues.

For nearly 350 years, Maryland has produced some of the finest horses and riders in the world. This is no accident. The love of the horse is ingrained in our culture and the stables listed in this guide are your ticket to understanding and enjoying them.

We invite you to become a part of this great Maryland athletic and cultural tradition.

Sincerely,

Jim Steele,
Chairman, Maryland Horse Industry Board

» USE OF THIS DIRECTORY

The Maryland Horse Industry Board (MHIB) has made every effort to ensure the accuracy of the listings appearing in this guide. However, some of the information may change after publication and we suggest you check with the stable listed to confirm the information contained herein. MHIB can only guarantee that the stables listed in this guide are licensed with the State of Maryland for the current fiscal year and have met the standards of care established by the State of Maryland. MHIB is listing these stables as a courtesy to the consumer and stable and does not, in any way whatsoever, endorse any particular stable or guarantee its services. In the event you visit a facility that you believe is substandard in care and safety, please contact MHIB with your concerns.

MARYLAND'S Licensed Stable Network:

A NATIONAL LEADER

Few states require commercial stables to be licensed.

Our state is regarded as a national role model.

Maryland's Licensed Stable Network, currently comprised of approximately 600 lesson, boarding, rental and rescue stables, is one of the Maryland horse industry's greatest assets.

These are the outreach facilities where the public can actually see and experience horses up close and personal, and learn how to enrich their lives by developing relationships with these incredible animals.

The Maryland Horse Industry Board licenses stables that solicit business from the public, either by giving lessons, boarding horses, renting them for trail rides or offering them a rescue or sanctuary. The licensing procedure emanates from a code written in 1968 that

authorized a State Board of Inspection of Horse Riding Stables (Annotated Code of Maryland, Agriculture, Subtitle 701.)

Here are 10 reasons why it is a real benefit to become licensed, and join the network of professional horsemen and women on the following pages. They dedicate their lives to providing regulated, inspected facilities for their fellow citizens to enjoy a wonderful life with horses.

➤ *Benefits of Being A Member of Maryland's Licensed Stable Network:*

1. Shows the stable is a bonafide, responsible commercial operation abiding by regulations written by their fellow horsemen and women, and that the stable operation is an upstanding member of Maryland's horse community.
2. Establishes a level of trust and confidence with clients that the stable is fully licensed by the state, is subject to unannounced inspections, and abides by state laws. Some customers will NOT do business with an establishment unless it is licensed.
3. Being licensed is a badge of honor, or, if you will, a Good Housekeeping™ Seal of Approval. It shows that the operator is interested in your horses' well-being by meeting state regulations regarding care of his (and your) animals, and that he cares about the safety of his customers.
4. Licensed stables are part of a statewide network that show pride in its industry and serves as a model for other states.
5. Licensed stables have representation on the Maryland Horse Industry Board (MHIB), which is a program within the Maryland Department of Agriculture and a member of the American Horse Council. MHIB meets monthly to discuss issues and develop programs, initiatives and projects to promote and market the industry. The current Licensed Stable representative on the 12-member board is Karen Fulton from Carroll County. The meetings are open and the public is welcome to attend.
6. MHIB is developing marketing programs to help grow the industry, including publication of this first comprehensive Official Guide to Maryland's Licensed Stables. The guide is available for free, in print and online, and is part of the "Maryland's Best" marketing program provided by the Maryland Department of Agriculture.
7. If a stable is unjustly accused of an infraction and is licensed, MHIB inspectors and personnel are available to serve as advocates and show that the operation is in good standing with the State of Maryland.
8. Provides a good selling point in a stable's own individual advertising and marketing program showing the stable is fully abiding by state regulations and inspections.
9. By being licensed, stables are eligible for certain local, state and federal cost-sharing programs to improve their facilities, and for annual grants made by MHIB.
10. It's the law. By being licensed, an operation avoids operating illegally in the state, thereby facing fines and other penalties, and is able to represent itself to the public as a reputable facility that cares about the welfare of the animals, its customers, and the entire horse industry.

To learn more about the licensed stable network, contact Ross Peddicord, executive director, MHIB, at ross.peddicord@maryland.gov or phone: 410-841-5798.

BY THE NUMBERS... The BILLION DOLLAR IMPACT ON OUR STATE

LAND

- Horse farms maintain Maryland's green space.
 - Next to forestry, pastures are among the best filtering devices to protect the Chesapeake Bay from harmful runoff.
 - **587,000 acres** or nearly 10 percent of Maryland land is owned and/or controlled by Maryland horse owners and their families.
 - **188,000 acres** are strictly devoted to horses.
 - **88,000 equine acres** are preserved forever as farmland.
- Maryland Equine Census, National Agricultural Statistics Service, 2010*

MARATHON FARM - BALTIMORE COUNTY

MONEY

- Marylanders spend **\$512 million** annually on equine operational and capital expenditures.
- There are 79,100 horses in Maryland, collectively worth **\$714 million**.
—*Maryland Equine Census, National Agricultural Statistics Service, 2010*
- **\$514 million** is bet annually at Maryland racetracks, including Thoroughbred, Harness and Steeplechasing.
—*Maryland Racing Commission, 2010*
- Total annual expenditures from horse participants and fans amount to more than **\$1 billion!**

JULIO MENDOZA PERFORMS DRESSAGE FREESTYLE AT "RIDE FOR LIFE," PRINCE GEORGE'S EQUESTRIAN CENTER.

FACILITIES

- There are 16,000 places in Maryland where horses are kept.
- Total assets amount to \$5.6 billion, including facilities and inventory.
—*Maryland Equine Census, National Agricultural Statistics Service, 2010*
- In Maryland, there are:
 - 3 Thoroughbred flat tracks (*Pimlico, Laurel, Timonium*)
 - 2 Standardbred harness racing tracks (*Oceans Downs, Rosecroft*)
 - 2 Major Thoroughbred training centers (*Fair Hill, Bowie*)
 - Several Leading Exporters of International Equine Genetics (*Hassler Dressage at Riveredge, Hilltop Farm, Some Day Soon and Harris Paints are among the famous Maryland farms exporting the finest international bloodlines*)

OCEAN DOWNS NEAR OCEAN CITY IS ONE OF TOP 10 BEST-ATTENDED HARNESS MEETS IN U.S.

MARYLAND HORSE INDUSTRY'S STATE'S ECONOMY

PEOPLE

- The Maryland horse industry involves more than **65,500 Marylanders** as owners, employees and volunteers.

—*American Horse Council Economic Impact Study, 2005 by Deloitte*

- A cross section of Marylanders who participate in the Maryland horse industry include corporate CEOs, television personalities, owners of major league sports franchises and a professional NFL running back. The majority, though, are everyday folk who enjoy horses as a major part of their lives.

(L. to R.)--Under Armour CEO KEVIN PLANK, Sagamore Farm, purchased 2007; the Steelers' ART ROONEY FAMILY, Shamrock Farm, 1948; NFL RB Brian Westbrook, Westbrook Stables, 2006.

LIZ COLLARD (L.) AND SHARON CLARK OPERATE INTERNATIONAL QUARANTINE STATION RIGBIE FARM. THEY LEAD SAND WITCH, U.S. ARABIAN RACING CHAMPION "HORSE OF THE YEAR."

GROOMS AT THE BOWIE TRAINING CENTER

JOBS

- There are **28,000 full and part time jobs** directly associated with the Maryland horse industry.

—*American Horse Council Economic Impact Study, 2005 by Deloitte.*

- There are 6,310 jobs directly related to operational horse farms, not including racetracks and trade and support industries.

—*Maryland Equine Census, National Agricultural Statistics Service, 2010*

THE JOCKEY COLONY AT LAUREL PARK

YOUTH

Our future is bright!

- There are 1,500 Maryland youth who maintain 4-H horse projects. (*U. of Md. Extension*)
- There are 22 U.S. Pony Clubs in Maryland. (*U.S. Pony Clubs*)
- There were 75 competitors in 2011 at the Maryland Junior Hunt Cup races. (*North American Point-to-Point Association*)
- There are 55 high schools with Interscholastic Riding Teams and 13 colleges with Intercollegiate Riding Teams and Clubs. (*The Equiery*)
- In Baltimore City, City Ranch, which is expanding, involves nearly 1,000 urban youth in riding and grooming lessons. (*Ahesahmahk Dahn, City Ranch, Inc.*)

MARYLAND: Setting the Standard for Equine Care

Whether you are thinking of buying a horse or currently own horse(s), you should be aware of what the law in your state requires for care of that horse.

Not all states have laws concerning livestock.

However, Maryland has many protections, guidelines, and best management practices concerning the care of horses.

Maryland law protects all animals.

The law, in part, states “that any person having the charge or custody of an animal must provide: Nutritious food in sufficient quantity, necessary veterinary care, proper drink, air, space, shelter and protection from the weather.”

MHIB regulations for licensed stables.

There are regulations associated with the statute establishing the Maryland Horse Industry Board, that specifically outline “the humane treatment of horses and the safety of horse riders.”

General requirements for licensed stables state the licensed operator shall ensure that:

- (1) **The Stable and Area Around Stable**
 - (a) Each horse under his control is provided shelter, and that shelter is:
 - (i) Clean,
 - (ii) Dry,
 - (iii) Well-ventilated, but not drafty,
 - (iv) Able to afford horses protection in inclement weather,
 - (v) Neat and orderly, and
 - (vi) Sturdy and in good repair;
 - (b) Adequate measures are taken in and around the stable to:
 - (i) Prevent excessive manure accumulation, and
 - (ii) Control flies and rodents
 - (c) All fences used to confine horses are sturdy and in good repair;
 - (d) Each stall occupied by a horse:
 - (i) is cleaned regularly, and
 - (ii) Has a bedding of regularly changed straw, shavings, or other suitable material, sufficient enough to maintain the horse in a clean and dry condition;
 - (e) All tools used to clean and maintain the stable and its immediate area are properly stored when not in use.
- (2) **Other Areas.** The licensed operator shall ensure that other areas under his control where horses are confined, exhibited, exercised, or permitted to be ridden, are free of hazards.
- (3) **Food and Water.** The licensed operator shall ensure that:
 - (a) Each horse under his control is provided adequate food, water, and salt;
 - (b) That these items are provided in suitable containers; and
 - (c) That the food is:
 - (i) Of good quality, free of molds and other contaminants, supplying all the needed nutrients, to maintain a horse depending on its age, reproductive status, level of exercise, and geographic location, and

- (ii) Properly stored so as to maintain its quality.
- (4) **Health Care.** The licensed operator shall ensure that;
 - (a) Each horse under his control receives:
 - (i) Regular routine care, including but not limited to worming, dental, and foot care, and
 - (ii) Immediate attention, care and treatment if it becomes sick, injured or lame;
 - (b) Basic first aid supplies are maintained in good order;
 - (c) A licensed veterinarian examines a horse, if the Board requires an examination; and
 - (d) A horse not be ridden or driven if the caring veterinarian advises against it.

Facilities which rent horses for self-guided rides or for guided trail rides must comply with a few additional requirements. These requirements state:

- (a) That each horse receives the rest and sustenance it needs each working day, given its age, condition, and the type of activity it performs;
- (b) That each horse tacked and awaiting use has its girth loosened, is protected from the weather, and is not tied to the bit;
- (c) That a horse may not be used for riding or driving purposes if the horse is unfit;
- (d) That tack and related equipment:
 - (i) is clean,
 - (ii) is in sound condition, and
 - (iii) Cannot, by its adjustment, cause physical pain or injury to a horse;
- (e) That hoof picks, brushes, curry combs, and other grooming equipment are readily available, clean, and usable;
- (f) That any wagon used is in good condition, and that its:
 - (i) Axles are well greased, and
 - (ii) Brakes are operating.

Maryland Horse Council's "Minimum Standards of Care"

The Maryland Horse Council (MHC) is an umbrella organization representing Maryland horse associations, individuals and businesses (over 40,000 horse people).

MHC recommends a set of best practices for the care of horses for all horse owners called "The Minimum Standards of Care."

These guidelines are printed with permission from the Maryland Horse Council.

Nutritious food in sufficient quantity

Nutritious food is defined as wholesome, palatable and free from contamination, such as feces, mold, mildew, insects, etc. Food shall be provided in sufficient

quantity and be of adequate and appropriate nutritive value. Diet shall be prepared with consideration for the age, breed/type, condition, size, work level and quantity of equine(s). Equines should score, by a veterinarian, no less than a body condition score 3 on the Henneke Condition Scoring Chart to be considered of adequate weight. Equines shall have access to adequate natural forage or be fed daily or as recommended by a veterinarian. All storage and feeding receptacles shall be kept clean and free from contaminants, such as feces, mold, mildew, insects, etc. If more than one animal is fed at one time or in one place, it shall be the responsibility of the owner/custodian to ensure that each animal receives nutrition in sufficient quantity.

Necessary veterinary care

An equine shall be afforded immediate veterinary care if known or suspected to have an injury, accidental or deliberate, or exhibiting such signs as shock, colic, founder, tremors, swelling, broken bones, open wounds, inability to eat or drink, blistering as a result of fire, acid, etc., irregular or abnormal breathing, partial or total paralysis, abnormal discharge or bleeding, signs of disease, severe parasitic infestation or infection, loss of appetite, weight loss, abnormal skin condition or hair loss, temperature fluctuation, persistent diarrhea, inability to bear weight on a limb or lameness, or other such sign.

The following is recognized as standard veterinary care guidelines for equines:

- Hoof care maintenance and trimming every six (6) to eight (8) weeks, or as directed by a veterinarian or a farrier.
- Parasites kept under control through worming every six (6) to eight (8) weeks or as directed by your veterinarian.
- Annual dental check-up and necessary treatment to ensure proper and adequate food digestion.
- Vaccinations as recommended by your veterinarian.
- Proof of testing for Equine Infectious Anemia (Coggins Test) is mandated by law in the following cases;
 - When equines are being transported across state lines
 - When equines are bought or sold
 - When equines are at shows or gatherings

Proper drink

Proper drink shall mean clean, potable water available at all times for all equines. Exceptions shall be determined by veterinary consultation or professionally accepted practices for the safety and well-being of the equine. Equines that are being worked or are in transport shall be provided water as often as necessary for the health and comfort of the equine. Frequency of watering shall consider age, breed/type, condition, size and quantity of equine(s). Activity levels and climatic conditions must be considered. Equines that do not have free access to water, must be offered water at least twice daily. All water receptacles shall be kept clean and free of contaminants and be positioned or affixed to minimize spillage.

Air

Enclosed areas should be constructed or modified to allow free flow of air to control temperature, humidity and prevent air stagnation.

Space

Space available to the equine must be usable and safe (e.g. must be provided an area free from standing water, accumulated waste, sharp objects and debris, and maintained in a safe and healthful manner).

Fencing

Shall be well maintained and in good repair at all times. Equines shall be allowed to exercise and have freedom of movement as necessary to reduce stress and maintain good physical condition. Space and provisions for exercise must be appropriate and sufficient for the age, breed/type, quantity, condition and size of the equine(s).

Shelter or protection from the weather

Shelter for equines shall have at least a roof and three sides and be kept in good repair and free of standing water, accumulated waste, sharp objects and debris. Proper shelter provides protection from inclement weather conditions (e.g. prevailing wind, sleet, rain and temperature extremes). It is the responsibility of the owner/custodian to ensure that each equine, taking into consideration age, breed/type, and health, has access to proper shelter or protection from the weather (e.g. relief from more dominant equines that may exclude him/her from the shelter) OR All equines should have access to proper/appropriate shelter from weather extremes. Trees and natural weather barriers providing shelter may be considered adequate shelter.

In the August 2012 issue of *Horse Force Monthly* on the Eastern Shore, editor/publisher Tracey Snyder writes that while nothing is perfect, Maryland's equine protections "lead the way for other states to follow...for the new or inexperienced horse owner, these standards are a great resource as they begin their new journey."

Horses are GOOD for Folks of all Ages

From children to baby boomers, horses provide great exercise, entertainment and fun.

From traditionalists and baby boomers...

Reprinted from *The Baltimore Sun*
April 12, 2012
By Krishana Davis

Photo By Barbara Haddock Taylor/*Baltimore Sun*
These equestrians bonded in the Greenspring Valley:
left to right, Lisa Clark, Mary McGill, Kelly Baxter,
Susan Arnot and Amy Perlow.

How we work out: Hacking and yacking to good health

Meet Amy Perlow and the band of women equestrians who exercise while engaging in a little “girl talk.”

Type of workout: Cross country and on-trail horseback riding in the Greenspring Valley.

Who's in the group: Three to eight women, all over the age of 50.

How often they ride: They meet at least four to six times a week. After the horses are groomed and saddled, the women ride for about two hours.

How they got started: About 15 years ago, several of the women were boarding their horses at the same farm and became friends. Since then, they have moved their horses to a new farm but continue to ride together, extending an offer to other friends who have horses in the area.

Why it's a workout: Horseback riding can be a full cardiovascular workout, burning between 315-480 calories in a hour. Hacking, riding a horse for exercise, uses your large muscle groups as you squeeze and hang on with your legs. Posting, faster riding, uses your upper body.

Why they do it: Perlow, who has been riding since she was 8, says horseback riding is good exercise and very therapeutic. “There’s nothing better than being out in nature, no matter what the weather, because we ride year round.” She says she loves the bonds she develops with her horse and the other women in the group. “It never gets old.”

To millenials and digital natives...

A Winning Maryland Team
from Interscholastic (Middle
& High School) Competition

Horse Space is Green Space

CONGRATULATIONS!

Two licensed stables lead the way in Maryland Farm Stewardship Program.

Carla Stoner of Bloomsbury Forge in Frederick County and **Carolyn Krome of Persimmon Tree Farm** in Carroll County Are Among First Three Maryland Horse Farms Certified in New Program

By Jane Thery
Chair, Farm Stewardship
Committee, MD Horse Council

Horse farms and open space go hand-in-hand.

Well-managed pastures, hay fields and wooded areas on horse farms make a positive contribution to our open space, absorbing harmful runoff and providing habitat for wildlife. They also contribute to the health and well-being of our horses and provide opportunities for outdoor recreation and sport.

As a way to honor outstanding land management, The Maryland Farm Stewardship Certification and

Assessment Program (FSCAP) recognizes farmers for being good conservation stewards and meeting the Agricultural Conservation Stewardship Standard. Of the first 28 farms recognized as of July 2012, three are horse farms—and two are MHIB licensed stables—Bloomsbury Forge and Persimmon Tree.

Healthy horses and green space are vital to Maryland's well-being.

Bloomsbury Forge (Frederick County)

Persimmon Tree Farm (Carroll County)

Many programs are available to promote good farm stewardship including:

The University of Maryland Equine Extension program (www.ansc.umd.edu/erg)

The Maryland Association of Soil Conservation Districts (www.mascd.net)

HOW (The Horse Outreach Workshop) at the Maryland Department of Agriculture (www.mda.maryland.gov)

The Maryland Department of Agriculture Nutrient Management Program (www.mda.maryland.gov)

The Farm Stewardship Committee of the Maryland Horse Council (www.mdhorsecouncil.org)

For more information about how your licensed stable can become FSCAP certified, contact Gerald Talbert at 410-247-1973, geraldtalbert@verizon.net or visit www.mascd.net

Four Seasons, 40 Events to Watch Maryland Horses in Action!

There are thousands of horse events of nearly every type imaginable held throughout the year all over Maryland.

Here is a sampling of some of the major events from entertainment venues to international competitions, listed month by month.

JANUARY

Medieval Times, medieval jousting on horseback, open all year, Arundel Mills, Hanover (www.medievaltimes.com)

Horse World Expo, Maryland State Fairgrounds, Timonium (www.horseworldexpo.com)

FEBRUARY

President's Day Racing Weekend/Sprintfest at Laurel Park, Laurel (www.laurelpark.com)

MARCH

Maryland Point-to-Point Steeplechase Season starts (www.marylandsteeplechasing.com)

Beginning of Jousting Season, ring jousting, official Md. state sport (www.marylandjousting.com)

Opening Day Pimlico Race Course, Baltimore (www.pimlico.com)

Rosecroft Spring Harness Racing Season starts, Oxon Hill (www.rosecroft.com)

Show Place Arena and Prince Georges Equestrian Center, horse show season starts, Upper Marlboro (www.showplacearena.com)

APRIL

My Lady's Manor Steeplechase, Monkton (www.marylandsteeplechasing.com)

Grand National Point-to-Point, Butler (www.marylandsteeplechasing.com)

Decanter Wine Festival, Pimlico Race Course, Baltimore (www.marylandwine.com)

Maryland Hunt Cup, Glyndon (www.marylandsteeplechasing.com)

Maryland Day, UMD (Ag Day Avenue, equine studies, stables open house & show) College Park (www.marylandday.umd.edu)

MAY

MCTA Horse Trials, Shawan Downs, Cockeysville (www.mdcta.com)

Lady Legends/Black-Eyed Susan Day, Pimlico Race Course, Baltimore (www.preakness.com)

Preakness Stakes, Pimlico Race Course, Baltimore (www.preakness.com)

National Pike Festival & Wagon Train, Hagerstown (www.nationalpikefestival.org)

Fair Hill Races, Fair Hill Natural Resources Management Area, Elkton (www.fairhillraces.com)

JUNE

Battle of the Beast Rodeo Season starts, J Bar W Ranch, Johnsville (www.jbarwranch.com)

Ocean Downs Harness Racing starts, Berlin (www.oceandowns.com)

Ride For Life "Dancing Horse Challenge" Dressage Competition, Prince George's Equestrian Center, Upper Marlboro (www.pvdarideforlife.org)

Blue Crab Classic, Bay Area Polocrosse, Serenity Farm, Benedict (www.bayareapolocrosse.org)

JULY

Chincoteague Pony Swim, Assateague Island National Seashore, Md. & Chincoteague, Va. (www.assateagueisland.com/ponyswim/ponyswim.htm)

Totally Thoroughbred Horse Show, Pimlico Race Course, Baltimore (www.pimlico.com)

Ronny Maher Memorial Polo Cup, Ladew Gardens, Monkton (www.marylandpolo.com)

Maryland Horse Trials, The Highlands at Loch Moy Farm, Adamstown (www.themarylandhorsetrials.com)

AUGUST

Maryland State Fair (11 days of horse racing & horse shows), Timonium (www.marylandstatefair.com)

Maryland Renaissance Festival, The Jousters, freelance medieval style jousting, Crownsville (www.rennfest.com)

SEPTEMBER

Green Cup Polo Tournament, Capitol Polo Club, Poolesville (www.greencuppolo.com)

Horses and Hounds, Scenic Byway

Maryland Department of Transportation, State Highway Administration

The sounds of hunting horns and baying hounds seem to echo among the valleys and vistas of this route, as if you've driven into the wide-open English countryside.

Though located in an area traditionally known as hunt country, fox hunting and steeplechase races are still popular here, the farms you see along the way are also famous for producing Thoroughbreds that have raced on major tracks across America. In addition, many of Maryland's most beautiful licensed stables are situated on these roads.

Shawan to Hereford-Tufton Ave, Worthington Ave, MD 128, Dover Rd, Trenton Rd, MD 88, Grace Rd, MD 137 & MD 45

Start your tour by leaving I-83 at Exit 20 West, which takes you toward Shawan. First, plan to stop at the Oregon Ridge Nature Center and Park, with its forest hiking trails, wildlife management pond, archaeology site and excellent birding areas. Across the street is the new Baltimore County Center for Maryland Agriculture. Next door is Shawan Downs, a premier equestrian facility located on 300 acres of former farmland, attracts thousands of spectators each autumn for a series of steeplechase races known as the Legacy Chase.

Along Tufton Avenue, country stores and farm markets offer an abundance of fresh fruits and vegetables during the growing season. Continue West through Worthington Valley, an 18th century farming area that is much as it was when the ancestors of many current residents first settled here. Just up the road, a world famous steeplechase race, the time honored Maryland Hunt Cup, has been held each spring since 1894. Fans enjoy an afternoon of tailgating and picnicking on a hill overlooking the four mile, 22 fence racecourse.

The humble, 19th century town of Glyndon, found near Reisterstown, grew up as a popular summer community accessible via the Western Maryland Railroad. Up MD 128 is St. John's Episcopal Church, built in 1869 and serving as the site of a "Blessing of the Hounds" ceremony held each Thanksgiving Day. A drive along Belmont Road takes you through a broad valley and past Sagamore Farm, newly renovated to take its place among the country's leading Thoroughbred farms.

On a three mile timber course in Butler, the century old Grand National Steeplechase is another springtime tradition. From there, the route passes through the small town of White House, beyond rolling countryside, to Hereford, a

19th century village that grew up around the York Pike. Gunpowder Falls State Park's Hereford Wildlands features steep-sided valleys, rocky trails and an upland forest habitat for many species of birds. See local outfitters about canoes, bikes, inner tubes, or complete guide services.

Hereford to Jacksonville – MD 138, Troyer Rd, Harford Creamery Rd, Madonna Rd. & MD 146

Enter Monkton by way of MD 138. Surrounded by horse farms and well preserved estates, this historic mill community along the Gunpowder Falls was once served by the North Central Railroad. Today, a hiking and biking trail follows the abandoned railroad bed up to the Pennsylvania line, linking into the Mason and Dixon byway. Heading South on MD 146, visit the Ladew Topiary Gardens, featuring 22 acres of fancifully shaped shrubbery and 15 thematic flower gardens surrounding a historic manor house. Further South, one of the oldest and most grueling steeplechase courses in the country is found at My Lady's Manor, which was property given by the third Lord Baltimore to his fourth wife in 1713.

Begin to loop back to your starting point by turning right on Manor Rd, or follow MD 146 South to Jacksonville, which is a commercial center for the surrounding rural area.

Jacksonville to Cromwell Valley-MD146, Dulaney Valley Rd, Manor Rd, Hydes Rd, Long Green Pike, Glen Arm Rd & Cromwell Bridge Rd.

You're still in "Horse Country" as you head south on MD 146 from Jacksonville, but a variety of recreational opportunities present themselves at each turn. Take a picnic basket along with you to Maryland's first winery, Hydes-based Boordy Vineyards. Established in 1945, Boordy operates amid a cluster of 19th century farm buildings, offering tours, wine tastings and special events throughout the year. Just up Long Green Pike is St. John the Evangelist Catholic Church. The structure you see today was built in 1855 after the original church, established in 1822, burned down. Next, explore the scenic roadways of the Loch Raven Reservoir and Cromwell Valley, stopping to enjoy hiking, biking or fishing.

Sidetrack East along a portion of Gunpowder Falls State Park toward Kingsville and the historic Jerusalem Mill. A gristmill village remained busy in the area of nearly two centuries, beginning in 1772. Today you might be able to catch a living history demonstration while touring the mill, blacksmith shop and gun factory.

Your journey concludes in Towson, where the Hampton National Historic Site takes visitors back to 18th century high life. When the mansion was completed in 1790, it represented the height of post-Revolutionary War opulence, with gardens, an icehouse and stables. Original slave quarters are also on site.

Old Line Lore: Native Dancer, one of the top-ranked U.S. Thoroughbred champions of all time, is buried in an equine cemetery at Sagamore Farm in the Glyndon area. Nicknamed "the Gray Ghost," Native Dancer was the first horse made famous through television and was also featured on the cover of the May 31, 1954 *Time Magazine*.

Assateague Island National Seashore is another scenic byway. See Maryland's wild horses and the story behind them. Visit www.assateagueisland.com

SO YOU WANT TO LEARN TO RIDE?

SOME ADVICE FOR BEGINNERS

Where do you turn to if you want to learn to ride?

At our Maryland Horse Industry Board informational booths, we hear this from folks all the time—

Here's some advice from riders Grace Fulton, Emily Arches, Woodge Fulton and Kaitlyn Capasso.

"I'd like to ride. My kids would like to ride. I don't know where to go or how to do it."

STEP ONE: Consult the Official Guide to Maryland's Licensed Stables OR for a complete list of Maryland's Licensed Stables go to the MHIB website:

www.mda.maryland.gov/horseboard

NOTE: DON'T FEEL YOU HAVE TO BUY FANCY GEAR! FOR STARTING OUT, ALL YOU NEED IS A HELMET, HARD SHOES WITH A HEEL & BLUE JEANS (Many stables will provide you with a helmet until you can buy one)

QUALITY METHOD

- Make sure the stable you choose is licensed by the Maryland Horse Industry Board. A full list is published online at the MHIB website: www.mda.maryland.gov/horseboard. **Not all the licensed stables are listed in this Guide!**
- Ask around and get a referral from a trusted acquaintance.
- Contact the barn and SCHEDULE a barn tour.
- If you approve of the facility, arrange for an orientation program or evaluation lesson to see where you or your child would appropriately fit into the lesson program.
- If this instruction is satisfactory and safety standards are up to par, you have found the right barn for you! Congratulations!!

MEDIOCRE METHOD (not recommended!)

- Google search for horse stables in your area.
- Stop by unannounced or drop your child off for the first lesson.
- Hope and pray that instruction and safety methods are adequate!

POOR METHOD (not recommended!!)

- Buy a horse online for you or your child.
- Have it trailered directly to your house.
- Go to the farm closest to your house.
- Request to board the horse there without thoroughly examining the facility or scheduling riding lessons for you or your child.

CHECKLIST FOR FINDING THE RIGHT STABLE

1. Is the facility well kept? Grass mowed? Minimal weeds? Does it have a good 'feel'? Are the folks there friendly or does no one make eye contact?
2. Does the manager and/or the instructor appear professional? Are they willing to spend time to orient you to horses and the surroundings properly? Are they on time for the first lesson...is there adequate help to guide you or your child to get your horse/pony groomed/tacked up? Are they busier talking on the cell phone or talking to people outside the ring than they are in teaching you or your child?
3. Do the horses look happy, well cared for and comfortable? Does the barn enforce safety rules? That means No running, No sandals (have you ever seen what a hoof can DO to a big toe?) Do they encourage/require helmets? Are the riders confident and chatty, or are they terrified and sullen?
4. Does the barn fit your family's personality and pocketbook? Is it a place to learn the basics? Then, can it take you and your child up the ladder of equitation and horsemanship, through horse leasing and into horse ownership? Do they offer summer camps? Pony Club? 4-H? On and off the farm showing? Fun programs for adults? Is there room to grow?

All of these are IMPORTANT CONSIDERATIONS in choosing the right barn for you and/or your family.
HAVE FUN AND ENJOY!

There is no better sport in the world that TEACHES
COMPASSION AND COMMITMENT to children and adults.

After all—your partner in all of this is TOTALLY AT YOUR
MERCY TO CARE FOR ITS WELL BEING!

EQUESTRIAN SPORTS are the only Olympic sport where
men and women compete on an equal basis. . .
HOW COOL IS THAT?!

HOW TO USE THIS GUIDE

The 2010 Maryland Horse Census found that there are 16,000 places in Maryland where horses are kept. This number includes all private farms and farmettes, breeding and training facilities and large outlets such as racetracks and training centers. As a regulatory body, MHIB licenses about 600 of these stables, specifically ones who solicit business from the public, offering boarding, lessons, rentals or a rescue or sanctuary.

Nearly 400 stables have elected to participate in this guide. We hope others will join online throughout the year and that stables, who are eligible but are not currently licensed, will become educated to the network and join in.

SECTION ONE: MAPS Pages 20-43

There are 12 maps, broken out into individual counties and groupings of counties, where licensed stables are located. Pick out where you live or want to ride, and find the stables in that area.

SECTION TWO: LISTINGS Pages 44-94

To make the guide easier to use, all stables are broken down into 9 categories, according to which category best fits their principal activity. They are listed by county in each category. If the stable offers other services, the name of the stable, but not its entire listing, will be included in other appropriate categories.

The categories include:

- **Boarding Only (BO)**
- **Lessons Only (LO)**
- **Multi Purpose (MP)**
(offering a menu of services including boarding, lessons, leases and sales, summer camps, etc.)
- **Rentals**
- **Rescues (RS)**
- **Sales and/or Leases**
- **Summer Camps (SC)**
- **Therapeutic (T)**
- **Western Riding**

*Find which category interests you,
read the listings, then locate it on the maps.*

PLEASE NOTE: CONTACT ALL STABLES FIRST, EITHER BY TELEPHONE OR EMAIL, AND SET UP AN APPOINTMENT TO VISIT. PLEASE DO NOT DROP IN UNANNOUNCED. THESE ARE BUSY PROFESSIONAL FACILITIES WITH VALUABLE HORSES AND EQUIPMENT. AS A COURTESY, PLEASE CONTACT THE STABLES FIRST BEFORE VISITING.

IMPORTANT NOTICE

1. Photographs in this guide are used only for illustrative purposes and do NOT in any way represent an endorsement by MHIB. The photographs were chosen at random by the designer for their reproductive quality in a print medium.
2. Stables listed in this guide only represent a partial listing of the approximately 600 Licensed Maryland Stables. For a complete list go to the MHIB website: www.mda.maryland.gov/horseboard
3. MHIB has done everything possible to ensure the accuracy of the information published in this guide. Please let us know if you spot any errors so we can change them online and in future publications. This guide is published as a courtesy for Maryland's Licensed Stable operators and for the benefit of consumers who might want to use their services.

Karen & Stephen Fulton, owners & operators |

fullmoonfarmkaren@gmail.com

www.fullmoonfarm.com Amenities/Services:

over 80 acres, we teach balanced seat riding, which we use as a basis for 'eventing' and also our equitation programs. We host 4 unrecognized and are planning 1 USEA recognized horse trials (in 2013) as well as numerous xcountrty schooling days and jumper shows. We are an approved Pony Club Riding Center. Full Moon Farm also participates in 7 different winter equitation leagues, including IEA. We teach riding lessons to all levels of students both on school horses and/or privately owned horses. Many of our riders have achieved national recognition both in eventing and equitation! We have a 240' x 60' indoor arena, 200' x 400' outdoor as well as a lighted 75' x 160' outdoor. We have direct access to the Liberty reservoir trail system. We also host birthday parties and take our miniature horses to a variety of civic functions including libraries and nursing homes.

MARYLAND HORSES Are *INVALUABLE* in a Number of Ways

WORK

■ Maryland horses are on the job in 4 Mounted Police Units, numerous carriage companies and are used by Amish farmers and Baltimore City's Arabbers.

SPORT

■ Maryland boasts more than 1,000 annual horse shows and 3-Day events; a dozen organized foxhunting clubs; the nation's leading steeplechase owners and trainers; and the top Western Rodeo barrel racer. Top competitions include the Preakness, Maryland Hunt Cup, Fair Hill International 3-Day Event, Capital Challenge Horse Show, Maryland Million and many others.

RECREATION

■ Approximately 65% of all Maryland horse owners use public lands on more than 2,000 miles of trails.

THERAPY

■ There are over 50 therapeutic riding centers and organizations helping heal citizens with mental and physical disabilities, and providing holistic relief from everyday stress.

ENTERTAINMENT

■ From Medieval Times, to the Preakness infield, to polo at Ladew Gardens, horses provide world-class entertainment. In 2011, Maryland horses were sold to China to be part of the exhibition at the Heilan Equine Performance Show in Shanghai.

AGRICULTURE

■ There are hundreds of breeding farms of all types and breeds; and Marylanders spend over \$80 million annually on feed, hay and straw, much of it locally grown.

EDUCATION

■ Horses are used as educational tools in schools and colleges. Many institutions, including the U.S. Naval Academy, have interscholastic and intercollegiate riding clubs and teams.

TOURISM

■ "Horse Country" roadways are part of the Maryland Scenic Byways system. The Assateague Ponies and events like the Columbia Grand Prix in Howard County boost tourism.

MANUFACTURING

■ Maryland is home to a wide variety of equine-related manufacturers who distribute their products nationally or internationally, ranging from feed manufacturers to boot makers, saddlery products, equine nutritional supplements, horse shoes and various other equine supplies.

RESEARCH

■ The University of Maryland at College Park with its satellite farm in Clarksville is renowned for its contributions to equine research. The University, as well as several community colleges, have strong equine studies programs and the State is affiliated with the MD-Va Regional College of Veterinary Medicine.

MACKENZIE TAYLOR

World Mounted Games Individual Champion, Wales, UK

Congratulations!

Mackenzie Taylor represents the best of Maryland's Licensed Stable Network. She rides and trains at her family's Taylormade Farm, a licensed stable in Damascus (Montgomery County). Mackenzie adopted her mount, Inkspot, from Day's End Farm Horse Rescue, a licensed stable in Lisbon (Howard County). Now they are world champions!
