VI. PROGRAM POLICY

A. Mullinix Contested Case Hearing

Mr. Draper introduced himself as John W. Draper, Jr., Chairman, of the Board of Trustees. He stated the purpose of this hearing was to consider whether to dismiss or grant the Mullinix request to terminate the agricultural landowner's easement on the four farms in Howard County.

Mr. Draper preceded over the hearing and introduced the Board of Trustees members that were in attendance as follows: Susanne Brogan, State Treasurer representative; Jerry Klasmeier, Comptroller representative; Dan Rosen, representing the Secretary of the Department of Planning; Mary Ellen Setting, representing the Secretary of the Department of Agriculture; Bernard L. Jones, Sr. Vice Chairman; James B. Norris, Jr.; Donald T. Moore; Eugene B. Roberts, Jr.; Jonathan Quinn; Patricia A. Langenfelder; and Michael Calkins. Craig Highfield was not in attendance.

The Mullinix Contested Case Hearing was recorded by a Court Reporter and lasted about an hour, listening to argument first by Mr. Filbert and Mr. Hayes (Presenters of Evidence) on their Motion for Summary Decision and then argument in support of (Opposition) and Motion to Terminate the Easement by Mr, Abramson for Mullinix. Each side was given an opportunity to present a rebuttal argument.

B. Draft Regulations – Chapter 01 Guidelines for the Maryland Agricultural Land Preservation Program

During the 2014 legislative session, SB 71 (see Attachment B, Chapter 12, attached) was passed. The law authorizes the Maryland Agricultural Land Preservation Foundation (MALPF) to limit the purchase price of an easement so that the maximum purchase price can be no more than 75% of the appraised fair market value of the land. The law also provides that MALPF will not pay less than 25% of the appraised
fair market value of the land for an easement, unless the landowner’s asking price is less than 25% of the appraised fair market value of the land.

Comments from Counties:

Bill Amoss, Harford County:

Comment: Add 15.15.01.10B(5) to read something like: In determining the fair market of the land, 1 development right will be deducted from each existing dwelling unit or: In determining fair market value of the land, 1 development right will be deducted for the main dwelling but all additional dwelling units will be treated as tenant homes and documented as such and no development rights shall be deducted.

Staff Response: This would require a change of the Foundation’s Law.

Comment: Add 15.15.01.10B(6) to read something like: In determining the fair market value a MALPF form must be filled out and signed by the County administrator detailing the total number of potential residential lots that can be recorded on the property and any residual TDR’s that also could be sold or transferred after taking in effect SB236 and other limitations.

Staff Response: A form has been created and is being used for the current cycle. To satisfy this particular comment, a sentence could be added to the form.

Comment: Add 15.15.01.10C(1) to read: MALPF will review and adjust capitalization rate within the formula for current market conditions each program cycle.

Staff Response: The Valuation Committee discussed adjusting the capitalization rate for each cycle and decided to wait until we have a chance to assess the impact on easement values from recent legislation for both the Septics and the Value of Easement (minimum/maximum of fair market value) laws.

Ms. West presented the item and was available for questions and comments.

Discussion:

Ms. West mentioned that in the 2014 legislative session SB 71 was passed to impose a maximum and minimum easement value on MALPF’s offers. Last month the Board discussed the Draft Regulations and they were forwarded to the County Program Administrators for review and comment.

Mr. Amoss requested additional information for his comment on reduction of development rights for each existing dwelling during appraisals. He was provided with the statute reference, §2-511(b) and (d)(iii).

Motion #4  Approve request for Draft Regulations – Chapter 01 Guidelines for the Maryland Agricultural Land Preservation Program for submission to the Administrative, Executive and Legislative Review Committee (AELR) and published for comments in the Maryland Register.

Motion: Susanne Brogan  Second: Bernard Jones, Sr.

Status: Approved

C. Withdrawn

D. Update/Revise Deed of Easement

Mr. Roberts presented the item and was available for questions and comments.

Discussion:

Mr. Roberts, Valuation Committee Chairman, gave an update on the revised MALPF Deed of Conservation Easement. The purpose of this Committee was to review and revise the Deed of Easement to improve its readability. The draft has already gone to the County Program Administrator’s for review.

The Committee only received 3 responses from the counties that included additional suggestions. Many of those suggestions had already been discussed and resolved by the Committee.
However, as suggested by Baltimore County, Mr. Roberts requested that the acronym "IRC" be spelled out as "Internal Revenue Code" and that a reference to federal law be added to clarify that the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 is a federal law.

The Board agreed to incorporate changes into the MALPF Deed of Easement and to institute its use for the current cycle of applications.

VII. INFORMATION AND DISCUSSION

A. Fiscal Year 2015 Quarterly Inspection Report

Please refer to the list of counties for the inspection results as of October 7, 2014. In summary, one county has started inspections, Carroll County. This minimal activity is typical for the fall; not many inspections are conducted due to tall crops and hunting seasons which begin in the fall and continue into winter, and of course, the extreme western counties wait until spring. It is during the spring months when most of the inspection activity begins.
