II. ANNOUNCEMENTS

Ms. Cable thanked all the attendees for participating in the MALPF teleconference Board meeting. Ms. Cable asked all participants to keep themselves muted, and when unmuted, to clearly state their names before asking a question, or making a motion, etc. Ms. Cable also reminded Board members that when motions were made, Board members only needed to state their names if they were voting in opposition to the motion, rather than saying “aye” to vote in favor of a motion.

Ms. Cable informed the Board that MALPF is currently undergoing an audit by the Department of Legislative Services Ms. Cable further explained that MALPF has not been audited since 2015, due to a change in the law in 2016, which removed the requirement that MALPF be audited annually. As of 2016, MALPF is now audited in the course of routine MDA audits.

Ms. Cable shared the happy news that Amanda Wilson got married this month and is now Amanda Massoni, congratulations!

With that condition, the project will meet the criteria in the Water Resources Overlay Easement Policy. Request: Baltimore County:
Request for approval of a perpetual overlay easement to the State Highway Administration (SHA), totaling up to 0.3 acres for the purpose of a road improvement project.

Request approval for temporary construction overlay easement to SHA over two areas, comprising approximately 0.4 acres during construction.

Recommendation:
Staff recommends approval in accordance with COMAR 15.15.16. The public purpose for the perpetual easement is to improve a public road. State law permits condemnation of agricultural easements for public purposes (but not for economic or residential development).

Staff recommends the Board includes the following conditions of approval:

1. The final form of easement be reviewed and approved by MALPF staff and the Office of the Attorney General.
2. Obtain approval of NRCS to proceed with the recording of the perpetual overlay easement in favor of SHA.

Ms. Catle introduced the item. Ms. Benjamin was available to address any questions. Staff from MDOT SHA were available to address any question or concerns.

Ms. Catle highlighted that, because this easement was partially funded with federal money through the Federal Farm and Ranchland Protection Program, administered by the Natural Resources Conservation Service ("NRCS"), and that under their current guidelines, NRCS views the perpetual overlay easement agreement as a subordination to the MALPF easement, NRCS approval is required for the recordation of the perpetual overlay easement. MALPF, MDOT SHA, and Baltimore County have already consulted with NRCS regarding what NRCS will need to review and make a determination about this request.

Motion #8: To approve a perpetual overlay easement to the State Highway Administration (SHA) totaling up to 0.3 acres for the purpose of a road improvement project, incorporating MALPF Staff recommendations as conditions to the approval.

To approve for temporary construction overlay easement to SHA over two areas comprising approximately 0.4 acres during construction.

Request - Kent County:

Staff recommends approval pursuant to Agriculture Article - Annotated Code of Maryland, Section 2-513(b), COMAR 15.15.07, and more specifically under the Foundation's Guidelines for Requested Use of Land (Uses Policy), Sections A.10. - Processed (value added) farm and forest products; and Accessory Sales as defined in the Uses Policy.
Staff recommendation is subject to: 1) requirement that at all times at least one of the members of ACED LLC, the landowner, shall have an ownership interest in Lands Point Winery and Vineyards LLC, the operator of the winery, and that any approval of this request shall terminate if and when ACED LLC sells the property; and 2) compliance with COMAR 03.02.01.

Ms. Turner introduced the item. Dr. Smack and Ms. Gerber were available to address any questions. Ms. Turner explained that the winery includes a portion of landowner’s property that is not under the MALPF easement, on which more formal wine tastings and other events would occur. The final approval by the county to hold events on the non-eased portion of the property had not been obtained by the date of the meeting. As such, Ms. Turner added an additional recommendation to clarify that only wine tastings (and no other types of events) can occur on the easement property. Ms. Turner also pointed out that food served at the wine tastings shall be either pre-packaged or prepared off the easement property.

VI. PROGRAM POLICY

A. Appraisal Law

Request:
Staff requests review and discussion of the policy.

Recommendation:
Staff will bring the policy to the June meeting for a Board vote.

Appraisal Law Proposed Policy

The language in the “appraiser bill” (HB 17/SB 244), which passed in the 2020 session, is as follows:

THE FOUNDATION MAY USE A FAIR MARKET VALUE DETERMINED IN ACCORDANCE WITH THIS SECTION FOR UP TO 2 YEARS AFTER THE DATE ON WHICH THE FOUNDATION WAS FIRST REQUESTED IN WRITING TO PURCHASE THE EASEMENT.

For applications that were submitted in one cycle, where the properties did not go under easement, the existing appraisals may be used in the next consecutive easement cycle.

However, in lieu of using an existing appraisal, the Foundation may wish to order a new appraisal in certain cases, including the following:

1. If the applicant rejected a 75% FMV offer or an Easement Value offer in the previous cycle, if an asking price offer is rejected, the appraisal can be re-used.

2. If the property has new owners and that transfer was an arms-length transaction, then DGS should evaluate whether the new comp/new sale price has an impact on the existing appraisal.

3. There is a change in the application that affects the appraisal, such as a change to the lot selection or configuration of withheld acres.

4. There is a significant change in the real estate market in either a downward or upward trend. Some examples may be local in nature such as a County expanding its development envelope, a County change in zoning or a Comprehensive Plan change that may affect value.
MALPF Board Open Meeting Minutes May 26, 2020

5. Appraised values that were determined by a DGS-generated “composite” since the original appraisals are more than 30% different.

6. Appraisals that a landowner or County Administrator had an objection to for a material reason.

7. Appraisals for which there is new information regarding comps or an appraisal provided by the landowner or county administrator.

When the County submits its applications to the Foundation on July 1st of each year, the County will provide a letter to indicate whether it wishes to re-use any appraisals from a previous cycle and the justification for the re-use. Foundation staff will consult with the Department of Planning, and the Department of General Services’ Appraisal Unit to determine if the re-use of the appraisal(s) is(are) appropriate.

Ms. Chasse presented the draft policy to introduce it to the Board and the Counties.
