III. ANNOUNCEMENTS

Michelle Cable introduced the new MDA Deputy Secretary, Steve Connelly. Steve will represent Secretary Bartenfelder on the MALPF Board.

Ms. Cable shared with the Board that she has to provide the Governor’s Office a list of the non-governmental Board members attendance each calendar year. For 2021, only one Board member attended 100% of our 11 meetings – Cricket Goodall. Ms. Cable expressed her appreciation for Cricket’s attendance, as well as all the Board members for their continued service to the MALPF Board.

The Board re-visited the discussion of whether to remain virtual, or plan on holding any in-person meetings this year. The Board agreed at this time to remain virtual and will periodically re-assess as the health metrics for Maryland change.

Ms. Cable asked for the Board’s support to create a committee to investigate the impacts of Climate Change on the MALPF program. The committee will most likely first review the impact on the decision making process for new easement acquisitions, but then also look into the long-term stewardship impact on existing easements. Ms. Herr- Connell and Ms. Kille agreed to be Board representatives on the Board. None of the County Administrators on the line volunteered to join the committee. Ms. Cable will follow up with the counties to ask for 2-3 volunteers. Ms. Cable will also ask staff from DNR to participate in the committee, to provide input on Climate Change through their various mapping models. The Committee will report to the Board on any recommended changes to MALPF, be that policy, regulatory, or statutory changes.

Ms. Cable provided two budget announcements to the Board. First, a $5 million budget amendment was approved that will be added to the FY22 budget. These will be additional state funds to incorporate into the allocation of funds when FY22 offers begin at the February meeting. The new FY22 total is $54,052,331. Second, the Governor’s budget was announced, which includes a significant increase in funds for MALPF. The proposed FY23 budget is $72,203,328. Ms. Cable will reach out to the county administrators to set up a time to discuss strategies on how to best manage such a large increase of funding.

Ms. Cable also asked all participants to keep themselves muted, and when unmuted, to clearly state their names before asking a question, or making a motion, etc. She reminded the Board members that when motions were made, Board members only needed to state their names if they were voting in opposition to the motion, rather than saying “aye” to vote in favor of a motion.
IV. EASEMENT AMENDMENTS

A. HOWARD COUNTY

1. 13-79-03  Idiot's Delight  ~192 acres

Request:
Request approval of the sale of mitigation credits outside of a Priority Funding Area (PFA) for a residential project located at 2600 Marriottsville Road in Howard County.

Recommendation:
Staff recommends Board approval as the project location is within the County Priority Service Area (PSA) and Howard County staff are submitting a request to the Maryland Department of Planning to have their PFA map updated.

Ms. Cusins introduced the item and was available for questions from the Board. Ms. Kille had a number of questions about the project location (Ellicott City area & water/sewer district), as compared to the location of the MALPF easement (Woodbine rural/agricultural area). MALPF staff explained that Next Era Energy bought the stream credits for future mitigation projects including this one, and that the sale of credits outside of a PFA are allowed on a case-by-case basis if approved by the Foundation. The reason the request needed to come to the Board for approval is that the Foundation does not want to appear to be facilitating development or urban sprawl outside of the PFA. Ms. Herr-Cornwell commented that the County has submitted a PFA Amendment request to the Maryland Department of Planning and the request is currently in the review process with public comments due back by February 4, 2022. Ms. Cable commented that this project is in a high density water sewer district, and almost certainly will be developed at some point, whether or not the credits are from the MALPF easement property or someplace else.

B. 08-81-01C Serenity Farm, Inc ~222.755 acres

Request:
To approve oyster aquaculture education program.

Recommendation:
Staff recommends approval, based on the fact that the current definition of agriculture that MALPF applies specifically includes aquaculture. Per the current MALPF definition of agriculture, this is an allowable agricultural use.

Ms. Cousins introduced the item, with Ms. Cable providing additional information. The Board discussed and agreed with MALPF staff interpretation that an aquaculture lease should be treated as any other type of farm lease, with no MALPF review or approval of the terms of the lease.

Motion #14: Concurrence with MALPF staff interpretation of the MALPF definition of agriculture to include any type of aquaculture lease the same as any other type of farm lease. Therefore, no MALPF approval is required for a landowner to enter into a farm lease.
