

Landscape Technology Program

Montgomery College - Germantown Campus

-Spring 2021-

Looking to get Commercial Pesticide applicators license?

Earn your eligibility to sit for Commercial Pesticide Applicator License from your home

The following online classes and other select courses in the Landscape Technology Program, have been approved by the Maryland Department of Agriculture to prepare Greens Industry professionals for pesticide application certification.

LNTP 190 Pesticide Use & Safety*

2 semester hours

(Class ends on March 22)

Let *Chuck Schuster* prepare you for the pesticide application certification exam through a thorough understanding of the principles of pest control, including pesticide labeling, state and county regulations and proper handling. *This course helps satisfy the MDA Core requirement.*

Monday 6:00 - 9:30 p.m.

CRN 35267

LNTP 258 Landscape Management*

3 semester hours

Hone landscape management skills by an in-depth study of proper planting and pruning techniques. Learn how to properly evaluate soil sites and conditions. Learn to identify and control key weeds found in the landscape. Select appropriate amendments and develop fertilization programs. *This course helps satisfy the MDA IIIC Ornamentals requirement.*

Tuesday, 6:00 - 9:30 p.m.

CRN 32023, CRN 32024 Lab

**All classes held
online!**
