Applicants for certification as a Pest Control Applicator, Public Agency Applicator or Pest Control Consultant are responsible for obtaining the study material. The following is a listing of the study material used in conjunction with Maryland’s pesticide certification examinations. This listing, by pest control category, provides the title of the appropriate manual and the name of the supplier. Contact information for each of the suppliers is listed at the end of this document. The Core is not considered a Category of Pest Control, but everyone seeking initial certification in Maryland must take and pass the Core examination in order to become certified, except for the following categories where Core material is contained within the study material: Wood Treatment and Sewer Root Control (Categories 11 A and 11 C). Should you have any further questions regarding the manuals used for the pesticide certification examinations, or the certification process, please contact the Maryland Department of Agriculture (MDA), Pesticide Regulation Section, at (410)841-5710. Note: The Regulations Pertaining To The Pesticide Applicators Law are also part of the materials used for the certification examinations. If you received your application through the mail a copy of the regulations should have been provided at that time. In the event you obtained your application over the internet a copy of the regulations can be obtained from MDA, or they are also available through a link on the internet at the Department’s website - www.mda.maryland.gov.
