

Equine Nutrient Management and Conservation Practices Training

May 2, 2019
Annapolis, Maryland

COURSE DESCRIPTION

This training provides participants with an overview of Maryland's nutrient management requirements, best management practices, and basic soil conservation techniques for farms. Additional topics include cost-share and other financial incentives for large and small equine operations, pasture management techniques, basic fertility for pastures and hay, setbacks, buffers, and manure management, including storage and handling. The Farm Stewardship Certification and Assessment Program (FSCAP) and Maryland's Watershed Implementation Plan (WIP) requirements will be discussed. Instructors are university and government experts.

WHO SHOULD ATTEND

Owners and operators of equine operations, boarding stable license holders, and anyone involved in the equine industry who desires greater knowledge of environmental responsibility on their farms. *Participants earn six continuing education credits from the NMP.*
