December 12, 2019 dlf

Anyone who applies nutrients to 10 or more acres of agricultural land he or she manages is required to have a nutrient applicator voucher.* Vouchers expire after 3 years, with a 2-hour continuing education requirement for renewal.

The Maryland Department of Agriculture and University of Maryland Extension work together to offer courses expressly for voucher renewal as well as for initial receipt of a nutrient applicator voucher.

Contact the hosting County Extension office to register for a listed course and to confirm location and time. Since this brochure was printed, additional courses may have come available; contact your County Extension office for more information or visit www.mda.maryland.gov

Dates, times and locations are subject to change without public notice, so be sure to register with the host County Extension office to stay up-to-date.

Contact the MDA Nutrient Management Program for information regarding your voucher renewal status.

The cooperating agencies' programs are open to all without regard to race, color, sex, handicap, religion, age or national origin.

*or be a certified nutrient management consultant or a certified farmer/operator
