

Pet Focused Project

Project #

20-515

County: Baltimore

Number of Cats Spayed: 150

Number of Dogs Spayed: 87

Number of Cats Neutered: 165

Number of Dogs Neutered: 97

Amount Received: \$51,840.00

Amount Remaining (to be returned to MDA): \$13,812.00

Project Synopsis:

We altered a total of 499 animals over the last 2 years. We originally had a goal of altering 720 animals, but due to COVID causing changes in our operations we were unable to meet that goal.

--	--

Maryland Department of Agriculture
Spay and Neuter Grants Program

Project Description:

This grant allowed us to help alter 499 animals in the qualifying zip codes. It continues to be a popular option for people and we continue to book out.

Summary of Approach:

We promote with digital flyers as well as physical flyers so that the communities are aware of the options. We then have them submit online applications and schedule online as well. At the time of their appointment they have to show proof of assistance or low-income as well as their drivers license.

Accomplishments:

While we didn't complete our original goal we still managed to alter a large number of animals for qualifying community members.

Lessons Learned:

Learned how many surgeries we are able to accommodate during the pandemic. Learned that electronic flyers is a great way to present our services, but needed to make people aware that spaces fill up quickly and our scheduling is online to limit the number of frustrated clients
