

The Pawl Project

Project #
21-627

County: Cecil

Number of Cats Spayed:	256	Number of Dogs Spayed:	0
Number of Cats Neutered:	152	Number of Dogs Neutered:	0
Amount Received:	20,565	Amount Remaining (to be returned to MDA):	0

Project Synopsis:

Our Fourth year PAWL Project was to spay and neuter, and rabies vaccinate animals owned by citizens in a low income bracket in Cecil County at absolutely no cost.

Project Description:

The Pawl Project was created to spay and neuter and rabies vaccinate animals owned by citizens living in a low income bracket in Cecil County at absolutely no cost.

Summary of Approach:

This year was unique in that our grant occurred during Covid-19. However, we continued to market and alter animals despite this challenge when we were able.

Accomplishments:

We were able to effectively market and utilize our entire grant funding despite the challenges faced due to Covid-19. We altered a total of 408 animals. Due to additional funding to alter animals, we were able to alter even more animals thanks to this additional revenue.

Lessons Learned:

Our biggest lesson that we learned was what we can accomplish when we are faced with incredible challenges and limitations despite already facing the challenge of limited staff and resources.
