Number of Dogs Spayed

0

Number of Dogs Neutered

0

Total Surgeries Proposed

120

Total Surgeries Completed

122

Project Information

Project Synopsis

We requested a grant for 400 cats. Only 120 cats were approved for the MDA grant. By using our reserve funds and another small grant we were able to complete approximately 224 cats during this period. We still have a lot of work to do and will apply for another grant. We are currently out of f grant funds for spay neuter. The time wasted will only bring more kittens to the county to spayed and neutered later. We have our fingers crossed that we will receive another grant to continue this very necessary work.

Additional Information

Project Description

An aggressive Spay Neuter project to further reduce the homeless cat population in Somerset County and Help with adjoining Counties.

Summary of Approach

We advertised in local newspapers for Free Spay Neuter for low-income residents of somerset County. We also advertise our Facebook page and on our website.

Accomplishments

Thuc far this year we have accomplished 225 spay neuters We could do many more in the remaining year if we had the funding.

Lessons Learned

We should Keep working hard to find additional spay neuter grant funding and to keep searching for Low cost & hi- speed Spay neuter clinics. Surgery prices are going up each year.
