

## Pet Focused Grant Request

Project #

25-10099

County: Queen Anne's County

Number of Cats Spayed: 21

Number of Dogs Spayed: 18

Number of Cats Neutered: 22

Number of Dogs Neutered: 24

Amount Received: \$7,975

Amount Remaining (to be returned to MDA): \$0

### Project Synopsis:

Animal services exceeded the projected number of surgeries and maximized the number of animals helped in our community. Although it took us longer than expected to exhaust our funding due to scheduling issues the community was patient and all who applied received services.

**Free Spay and Neuter Program**

QUEEN ANNE'S COUNTY Animal Services

Maryland Department of Agriculture

Spay and Neuter Grants Program

## **Project Description:**

With this year's project we saw an equal number of applications for both dogs and cats. We focused this year on owner education and were able to convince many to have additional procedures performed at the shelter such as heartworm testing and distemper vaccinations at a discounted rate.

## **Summary of Approach:**

We assisted many county residents this year with transportation for their appointments as we began to realize shortly after funding was released that many would be participants were unable to drive to us. This level of cooperation was greatly appreciated and is a service that we are going to continue in 2026.

## **Accomplishments:**

We worked closely this year with our animal control officers to accommodate families unfamiliar with this grant project. They not only spread the word for us, but we were able to assist many families with unplanned litters essential breaking the breeding cycle in their homes.

## **Lessons Learned:**

We will need to schedule additional surgery days during peak kitten season to keep up with the demand of our shelter animals and residents participating in our grant project.
