

E. A veterinarian must be licensed in Maryland to provide telemedicine services in Maryland  
(1) A Maryland veterinarian may provide telehealth/telemedicine services to clients who move out of state for no more than 12 months before the VCPR is considered defunct, unless it is prohibited in the other jurisdiction.

F. Telerriage means emergency animal care for immediate, potentially life-threatening animal health situations, such as poison exposure mitigation, Animal CPR instructions, and other critical lifesaving treatment or advice. Telerriage may be performed by a veterinarian without establishing a VCPR or obtaining informed consent. Prescription medication may not be prescribed during telerriage without a valid VCPR.

C. A veterinarian or veterinary hospital is not required to offer telehealth/telemedicine services.
